

INSTALLATION INSTRUCTION

NOTE

- Please read the instructions carefully, get to know our shower seat and get prepared with the required tool in advance. Follow the instructions to install the shower seat correctly. This will help avoiding harming you and your family and your property.
- Please keep the instructions available after reading it carefully
- Please subject to the real products when the instructions are different from the real products. If there is any new update to products and its accessories, we will give no further notice.

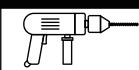

Shower seat and Accessory set

Shower seat

Parts	
	Base Cover x1
	Nylon Bolt Cap x6
	Screw x6
	Gasket x6
	Mounting Hole Guiding Sticker x1

Installation Tools Needed

Drilling machine

Hammer

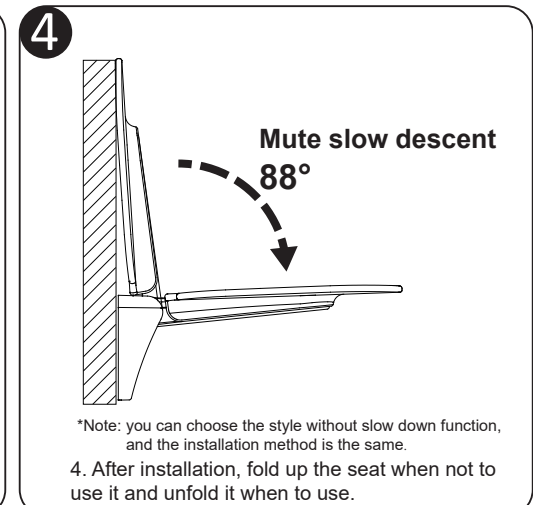

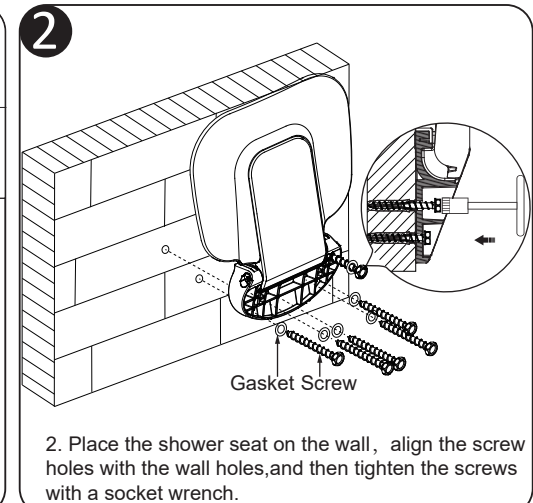

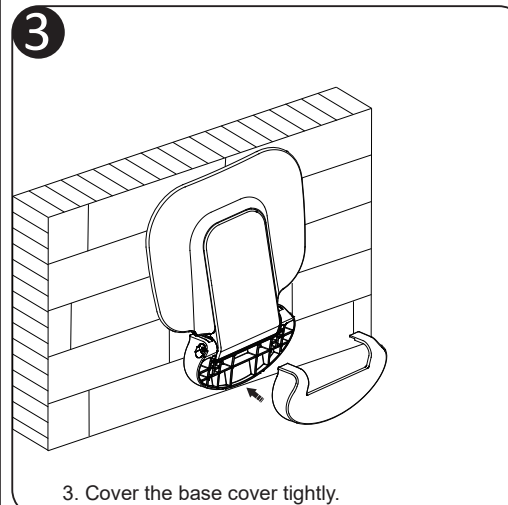

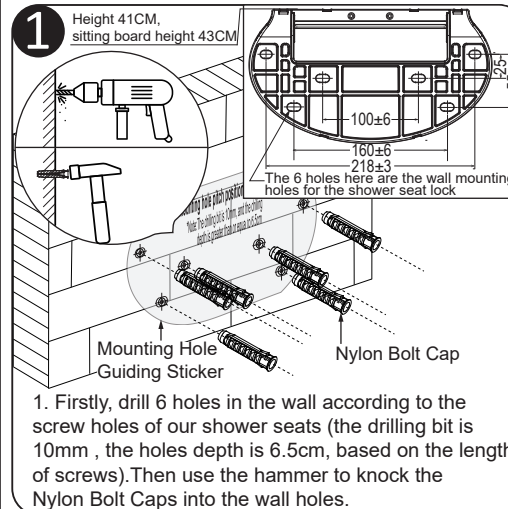

Socket wrench

Cautions

- 1: Please confirm whether the wall is a load-bearing pond before drilling;
- 2: Before drilling, please confirm whether there is a water pipe at the hole position;
- 3: Check whether the product accessories are complete before installation;
- 4: Make sure the drill bit is 10mm in size.
- 5: Make sure the hole depth is 6.5cm
- 6: The recommended height between the seat and ground is about 40-48cm.

INSTALLATION

*Note: The drilling bit is 10mm, and the drilling depth is greater than or equal to 6.5cm
